Summary

Full Stack Web Developer with expertise in the MERN stack and SQL, skilled in building dynamic and interactive web applications. Eager to apply and expand knowledge by adopting new technologies and best practices in web development. Strong problem-solving and communication skills, with a commitment to continuous learning.

Technical Skills

- **Languages:** JavaScript
- **Frontend:** HTML, CSS, React.js
- **Backend:** Node.js, Express
- **Database:** SQL Server, MongoDB
- **Version Control:** Git, GitHub

Certifications

- **Full Stack Web Development (MERN)**
Apna College - November 2024
- Comprehensive training in MongoDB, Express.js, React.js, and Node.js to build scalable web applications.
- **JavaScript Essentials**
Infosys Springboard - December 2024
- Learned JavaScript fundamentals, including variables, functions, loops, and event handling.

Projects

- **Wounderlust** (*React, Node.js, Express, MongoDB*)
- Developed a full-stack platform for property listings with features like user authentication, CRUD operations, reviews, and ratings.
- Designed a scalable user interface with image-based navigation for listing management.
- Deployed on Render to ensure accessibility and scalability.
- **Weather App** (*React, JavaScript, OpenWeather API*)
- Integrated a search box to display weather details like temperature, humidity, min/max temperatures, and descriptions.
- Fetched real-time weather data using APIs and implemented error handling for invalid inputs.

Education

M.Sc in Computer Science
Solapur University

B.Sc in Computer Science
Solapur University

Soft Skills

- Strong problem-solving abilities
- Excellent communication and collaboration skills
- Adaptable and quick learner
- Time management and prioritization
- Ability to work under pressure and meet deadlines
